

FLIGHT TEST REPORT

Post-maintenance test flight record — return to service documentation

Aircraft Type:	Registration:	Date of Test:	Work Order No.:
Maintenance Performed:			
Reason for Test Flight:			
☐ Return to Service ☐ Post-Major Repair ☐ Post-Component Change ☐ Periodic Check ☐ Other: _____			

Test Pilot:	Departure Time:	Arrival Time:	Total Flight Time:
Departure Aerodrome:		Test Altitude:	

Item	Result
ENGINE GROUND RUN	
Engine Start <i>Normal start procedure · No unusual noise or vibration</i>	☐ Satisfactory ☐ Unsatisfactory
Run-Up <i>Magneto check · Carb heat check · Oil pressure / temp normal</i>	☐ Satisfactory ☐ Unsatisfactory
TAKE-OFF & CLIMB	
Take-Off Performance <i>Normal take-off roll · Rotation at correct speed · No directional control issues</i>	☐ Satisfactory ☐ Unsatisfactory
Climb Performance <i>Rate of climb as per AFM · Engine parameters normal</i>	☐ Satisfactory ☐ Unsatisfactory
CRUISE	
Engine Power <i>Cruise RPM and fuel flow within limits · No unusual vibration</i>	☐ Satisfactory ☐ Unsatisfactory
Fuel System <i>Fuel selector change — engine runs smoothly · Fuel pressure normal</i>	☐ Satisfactory ☐ Unsatisfactory
HANDLING CHECKS	
Stall (if required) <i>Stall speed / warning as per AFM · Normal recovery</i>	☐ Satisfactory ☐ Unsatisfactory
Control Response <i>All controls — normal feel and response · No excessive play or stiffness</i>	☐ Satisfactory ☐ Unsatisfactory
APPROACH & LANDING	
Approach <i>Normal approach speed · Flap operation satisfactory</i>	☐ Satisfactory ☐ Unsatisfactory
Landing <i>Normal flare and touchdown · Directional control satisfactory</i>	☐ Satisfactory ☐ Unsatisfactory

POST-FLIGHT

Engine Shutdown

Normal shutdown · No abnormal indications after flight

☐ Satisfactory ☐ Unsatisfactory

Inspection After Flight

No leaks, damage, or defects found post-flight

☐ Satisfactory ☐ Unsatisfactory

☐ **AIRCRAFT IS SERVICEBLE — Approved for return to service**

☐ **AIRCRAFT IS UNSERVICEABLE — Defects require rectification before return to service**
